ABOUT ME

I am a responsible individual with a strong desire to learn. I am interested in technology and computing, and I enjoy acquiring new knowledge and tackling challenges. I am seeking my first professional experience related to my field of study to further grow in my area of interest.

WORK EXPERIENCE

Workshop Assistant

2021-2025

During the summers, I worked 8-hour shifts at my father's workshop. My responsibilities included agricultural machinery repair, purchasing spare parts and supplies, and customer service.

Intern at Aeris Ingeniería

2026

For two months, I completed an internship at Aeris Ingeniería. During this time, I received training on RFID and communication protocols, and together with a colleague, we carried out two projects that remain operational within the company today.
